The undersigned, on behalf of ALTERA CORPORATION, hereby disclaims the terminal portion of the term of any patent to be issued on the present application, Application No. 10/702,300, which would extend beyond the expiration date (currently November 2, 2019'), of the full statutory term of U.S. Patent No. 6,369,624.

The undersigned, on behalf of ALTERA CORPORATION, agrees that any patent to be issued on the present Application No. 10/702,300 shall be enforceable only for and during such period as the legal title to such patent shall be the same as the legal title to said Patent No. 6,369,624, this agreement to run with any patent to be issued on Application No. 10/702,300 and to be binding upon the grantee of such patent and its successors and assigns.

The undersigned, on behalf of ALTERA CORPORATION, does not disclaim any terminal part of the term of any patent, to be issued on the above-identified Application No. 10/702,300, that would extend to the expiration date (currently November 2, 2019'), of the full statutory term of U.S. Patent 6,369,624, in the event that U.S. Patent 6,369,624: (a) expires for failure to pay a maintenance fee, (b) is held unenforceable, (c) is found invalid, (d) is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321(a,b), (e) has all claims cancelled by a reexamination certificate, or (f) is otherwise terminated prior to expiration of its statutory term, except for the separation of legal title stated above.

The undersigned hereby states and certifies that:

It is applicants' and assignee's intention that if any change in the patent statutes changes the expiration date of parent Patent 6,369,624, then the date beyond which the term of any patent to issue on this application is disclaimed shall change along with the expiration date of the parent patent.
